

# HOW TO PLAY SHOWDOWN

## The Dice

Each die has six sides, ranked low to high:  
Nine, Ten, Jack, Queen, King, and Ace

## The Goal

Roll to create **Poker Hands** and **Triplets**.

## Gameplay (2 Players)

Choose a player to begin.

When your turn starts, roll **all five dice**. After rolling, you can choose to re-roll once or twice more, with any or all dice.

Next, choose a row to score your turn. Each row can only be scored by **one player**. Then, write an "X" in your **opponent's column** for the row you scored. Your opponent may no longer score that row.

\* If after your turn, your roll doesn't meet the requirements of an available row, your turn ends without scoring any points.

Now it's the next player's turn.

Continue until all rows are scored.

## Victory!

The player with the most points wins!  
... Best out of three?

		NAME					
		GAME					
		1	2	3	1	2	3
