

HOW TO PLAY TRIPLE SHOWDOWN

The Dice

Each die has six sides, ranked low to high:
Nine, Ten, Jack, Queen, King, and Ace

The Goal

Roll to create **Poker Hands** and **Triplets**.

Gameplay (2 Players)

Choose a player to begin.

When your turn starts, roll **all five dice**.
After rolling, you can choose to re-roll
once or twice more, with any or all dice.

Next, choose a row to score your turn.
Then, write an "X" in your **opponent's column** for the same row you scored.

The next player to score in that row gets
double points. The player who scores in
that row for the third time gets triple
points.

* If after your turn, your roll doesn't meet
the requirements of an available row, your
turn ends without scoring any points.

Now it's the next player's turn.

Continue until all spaces are scored.

Victory!

The player with the most points wins!
... Best out of three?

		NAME						
		MULTIPLIER	1x	2x	3x	1x	2x	3x
